## EXPERIENCE

### **Zensurance** — *UI/UX Designer*

SEPT 2021 – PRESENT

Working with product managers and stakeholders to ship features for an online insurance quoting tool, as well as accompanying internal systems.

### **Enghouse Systems** — *UI/UX Designer*

OCT 2020 – SEPT 2021

Owned the design of a web-based IPTV application. Developed a Figma component library and trained the UX team on best practices for its use/maintenance. Created various design deliverables across mobile, TV, and web platforms. Conducted internal and external usability testing sessions.

### **Graficon Interfaces** — *UI/UX Designer*

FEB 2016 – OCT 2020

Delivered wireframes, user flows, and hi-fidelity mockups for various projects.

### **The RefugeeHub** — *Communications*

OCT 2019 – OCT 2020

Conducted a usability review of a web-based education tool and used findings to improve user satisfaction and retention. UX/UI design for external website relaunch.

### **Government of Canada** — *Communications*

APR 2019 – AUG 2019

Owned the design of an interactive internal policing contact directory from initial research to dev handoff.
